Chocolate is useful in many ways. A long time ago, when people had cuts, they used the leaves and flowers of cacao trees to take care of their cuts. Nowadays, we eat dark chocolate to keep healthy. Dark chocolate is good for our heart and brain. We can eat it three times a week. That is pretty enough. This way, our heart and brain can work much better. It also makes us feel happy and comfortable.

However, some chocolate today is not healthy at all. There is too much sugar inside the chocolate. If we eat too much that kind of chocolate, we will become heavy easily. So, make sure we eat the right chocolate to enjoy a healthy life.
