by King Putin

★★★★☆ 4 out of 5 stars

NT\$230

Dr. Biden believes that the foods people eat have a lot to do with their blood types. If people follow a diet according to their blood types, they will get more energy, become healthier, and even lose weight.

1. Blood Type O

People with blood type O can digest meat and vegetables well. They should eat more beef, chicken, and fish if they want to lose weight. However, eating rice, cheese, and beans isn't helpful at all.

2. Blood Type A

People with blood type A should eat more fruit and vegetables if they want to lose weight. Meat isn't digested easily in their bodies, so they should eat less meat.

3. Blood Type B

People with blood type B should eat fewer noodles because they make them fat. Meat, milk, and vegetables are good for them to lose weight.

4. Blood Type AB

Only 5% of the people around the world have blood type AB. The number is much lower than types A, B, and O. It is healthier for them to eat vegetables, fruit, and eggs to go on a diet, but they should eat less meat.

Dear Editor,

I'm a number one fan of your newspaper, and so are many of my friends. We enjoy all the information in your articles.

On Tuesday, you ran one about some of the best and worst paying jobs in the USA. However, I was surprised it didn't talk about the pay gap. Men get paid a lot for work, and women should, too. In fact, it's too bad that they don't.

Women make up almost half of the workforce. Sadly, women with full-time jobs in the USA only get 79 cents for every dollar men make. Because of that, women make US\$10,763 less than men every year. Women with university degrees face a higher pay gap, and so do women of color. Actually, they have it worse. African American women aren't paid that much, and neither are Latin American women. The first gets 60 cents for every dollar paid to white men, and the second gets 55 cents. The truth is working women would make enough money for about 83 more weeks of food for their families if they were paid the same as men.

This pay gap hurts women, their families, and businesses. You have to do something to stop it. In this way, gender stereotypes can be broken step by step.

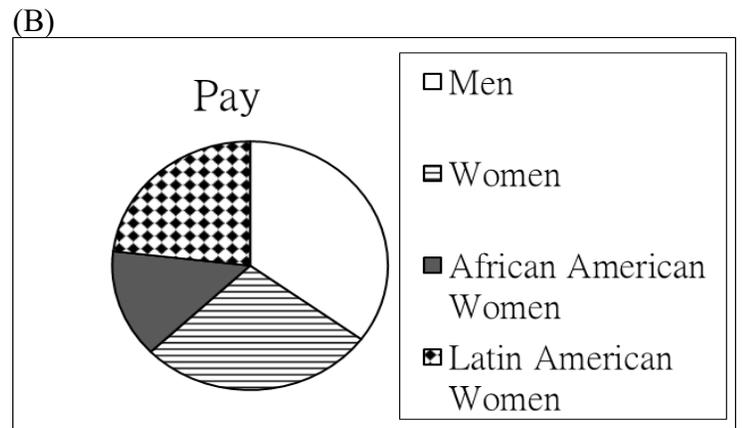

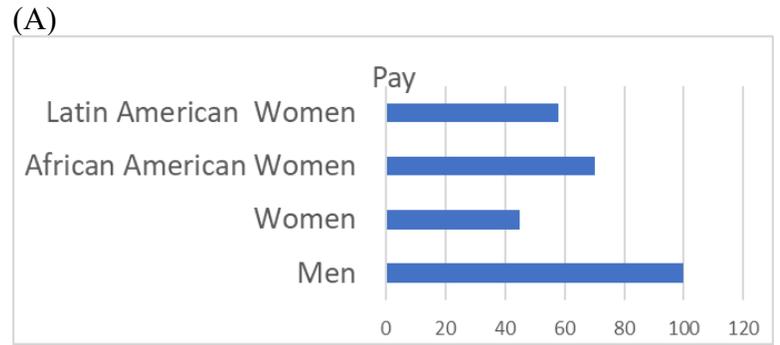

Sincerely,
 Ann Kenney
