三、閱讀測驗 24% (每題 2 分)

(1) Litter is garbage like food, paper, and bottles on the ground or in the street. Where many people live together, litter is a problem. People don't always put their garbage in the garbage can. It's easier to drop a piece of paper on the ground than to find a garbage can for it. But litter makes the city look dirty, and it spoils the view.

The wind blows paper and other litter all around. Often they are difficult to catch. When they blow against a fence, they are easy to stay there. The fence becomes a wall of garbage. Litter is a health problem, too. Litter carries disease and may hurt people's health.

Some people want to clean up garbage. They never litter themselves, and sometimes they work together in groups to clean the city up. In most places littering is against the law. The law punishes people who throw garbage on the streets. People who litter usually pay a fine if they are caught and sometimes they go to the prison.
