Water resource is very important for us. Nobody can live without water. Without food, we can live for some days. But without water, we only can live for three or four days. 97% of Earth's water is salty. Only 3% of Earth's water is fresh water. It means that we should cherish water.

According to the data from UNICEF, 0.8 billion people have no clean and safe water every day. One thousand and four hundred kids on the earth die every day for lack of clean water. We should do more to save water. However, many people in Taiwan don't cherish water at all. Even some of them throw trash in the rivers and lakes. Then, what can we do to save water?

- We can save water in every family. Turn off the faucet when we don't use water.
- Use water saving device in every factory.
- Don't pollute the river and the lakes.
- Don't play with water. If everyone can save water, the environment will be better.

- What is the the reading about?
(A) We should save the pets.
(B) We should love kids.
(C) We should save water.
- How many children die every day for lack of clean water?
(A) 1400 (B) 1200 (C) 1500

- How long can we live without water?
(A) Two months.
(B) Three days.
(C) Four weeks.
- What is true?
(A) 97% of Earth's water is fresh.
(B) 97% of Earth's water is salty.
(C) 96% of Earth's water is clean.
- What can we do to save water?
(A) Use clean water to water plants.
(B) Use water saving device.
(C) Play with water.
