Pooh Gets A Letter

Pooh was puzzled. Someone had pushed something through his mailbox and it wasn't a pot of honey. It was a piece of paper with writing on it.

Pooh knew all about writing of course.

He wasn't, in his opinion, a stupid bear. And he also wasn't, in most people's opinion, an intelligent bear. He was in between. He knew enough about stuff he needed to know, which was mostly about honey and he didn't need to know much about other stuff.

But sometimes life presented challenges and this letter – he knew that much – was one of those he needed to deal with. He needed to have a big think. And thinking made him hungry. So he got down to get a large pot of honey and started thinking and eating.

After he had thought and eaten enough, he decided what to do. He would collect his friend, Piglet, and they would go and see Owl and ask him about the letter.

Deadly swine fever could hit Taiwan pretty soon.

African swine fever (ASF) has been spreading quickly in China and has also travelled from Russia and Eastern Europe to Belgium. There have been over 360,000 cases of African swine fever so far in 2018 and 19 countries have been affected. Almost 700 million pigs were killed in China in 2017.

It is not only an animal health problem, but a public health and economic trouble. The virus is spread either through contact, or through meat products. Besides, it can stay in meat for several months. Travelers mustn't carry any pork products into Taiwan. Although ASF is not a danger to humans yet, it kills all kinds of pigs.

However, there are fears that virus could change. "What we're seeing so far is just the tip of the iceberg." Experts fear it is only a matter of time before ASF hits Taiwan. To protect this beautiful island from this terrible virus, people in Taiwan should be well prepared.
